

SECTION 01 REQUIREMENTS PRIOR TO CONSTRUCTION

1.1 GENERAL

Prior to the start of Construction, the following conditions must be completed:

- a) Provision of the final Detailed Engineering Drawings, signed off by the appropriate municipality, Aquatera and the Developer's Engineer, to Aquatera as noted below:
 - Two, large full sets, AO
 - Additional, 11" x 17" overall plan(s), include deep and shallow services as required
 - Additional, 11" x 17" overall plan showing fire hydrant locations
- b) Servicing Agreement endorsed by the appropriate municipality and/or Aquatera.
- c) Notification given to Aquatera, in writing, when the construction is intended to begin.
- d) Any necessary permits, agreements endorsed by the signing authority.
- e) Provide an overall 11" x17" plan showing locations for bacteriological testing as well as any injection/chlorination points. This plan is to be approved by Aquatera as part of the drawings issued for construction.

Adopted: January 2006
Revised: January 2009
