**Attention: Timothy Lau, P.Eng.**

Dear Timothy:

**Re: Town of Sexsmith, 2007 Water & Wastewater Master Plan Final Report**

Please find attached the Final 2007 Water and Wastewater Master Plan report for the Town of Sexsmith. We have reviewed the options and costs and trust that we have taken your previous comments into consideration..

If you have any questions please do not hesitate to contact us.

Yours truly,  
Morrison Hershfield Limited

G. D. (Doug) McRae, P.Eng.  
Department Manager

## TABLE OF CONTENTS

ACKNOWLEDGEMENTS	8
EXECUTIVE SUMMARY	9
1. STUDY AREA	14
1.1 Overview	14
1.2 Literature Review	14
1.3 Population	16
1.4 Land Use	17
1.4.1 Overview	17
1.4.2 Growth Plans	19
1.4.3 Ultimate Development	21
2. WATER SYSTEM	22
2.1 Existing Water System	22
2.2 Historic data	23
2.3 Unaccounted For Water (UFW)	23
2.4 Design Criteria	24
2.4.1 General	24
2.4.2 Fire Flow Capability	25
2.5 Water Demand Projections	26
2.6 Water Distribution System Modelling	26
2.6.1 Objectives	26
2.6.2 Methodology and Assumptions	26
2.6.3 Pressure Zones	28

2.6.4	Existing System Review	29
2.6.5	Future Expansions 5 Year Plan	30
2.6.6	Future Expansion 10 Year Plan	31
2.6.7	Future Expansion 20-Year Plan	31
2.6.8	Future Expansion Ultimate Development Phase (Conventional System)	32
2.6.9	Trickle Feed System	32
2.6.10	Option 3 (20 Year Growth Envelope only)	33
2.6.11	Conclusion	33
2.7	Water Supply Main From Grande Prairie	38
2.8	Storage Requirements	38
3.	<b>WASTEWATER COLLECTION SYSTEM</b>	40
3.1	Sanitary Sewer System Overview	40
3.1.1	Existing Sanitary system	40
3.1.2	Historic Data	41
3.1.3	Comparison of Design Criteria	41
3.1.4	Infiltration & Inflow	42
3.1.5	Wastewater Flow Projections	43
3.2	Design Criteria and Assumptions	43
3.3	Objectives	45
3.4	Review of the Existing Model	45
3.5	Future Expansion – Methodology and Overview	45
3.6	2007 – Existing Collection System	46

3.7	Future Expansion 5 Year Development Phase	47
3.7.1	Option 1 - Conventional	47
3.7.2	Option 2 – Low Pressure Sewers in Fringe Area	47
3.7.3	Option 3 – 20 Year Growth Envelope Only	47
3.8	Future Expansion 10 Year Development Phase	47
3.8.1	Option 1 - Conventional	47
3.8.2	Option 2 – Low Pressure Sewers in Fringe Area	48
3.8.3	Option 3 – 20 Year Growth Envelope Only	48
3.9	Future Expansion 20 year Plan	48
3.9.1	Option 1 - Conventional	48
3.9.2	Option 2 – Low Pressure Sewers in Fringe Area	48
3.9.3	Option 3 – 20 Year Growth Envelope Only	49
3.10	Future Expansion Ultimate Phase	49
3.10.1	Option 1 - Conventional	49
3.10.2	Option 2 – Low Pressure Sewers in Fringe Area	49
3.11	Conclusion	49
4.	<b>WASTEWATER TREATMENT SYSTEM</b>	53
4.1	Capacity of Existing Lagoons	53
4.2	Option 1 Expand Existing Lagoon System	54
4.3	Option 2 Aerated Lagoon System	54
4.4	Option 3 Mechanical Treatment Plant	55
4.5	Option 4 Pipeline to Grande Prairie	57
4.6	Discussion & Conclusion	57

5.	COST ESTIMATES	59
5.1	Water Systems	59
5.2	Wastewater Collection System	60
5.3	Wastewater Treatment System	60
6.	INFRASTRUCTURE CHARGES	62
6.1	Overview	62
6.2	Infrastructure Charge Calculations – Assumptions and Methodology	63
6.3	Funding Opportunities	66
6.4	Water Services Infrastructure Charge	66
6.5	Wastewater Services Infrastructure Charge	67
7.	CONCLUSIONS AND RECOMMENDATIONS	68
7.1	Infrastructure Investment Planning	68
7.2	Water and Wastewater Systems	68
7.2.1	Overview	68
7.2.2	Recommended Water System Improvements	69
7.2.3	Recommended Wastewater Collection System Improvements	70
7.2.4	Recommended Wastewater Treatment System Improvements	72
7.3	Infrastructure Charges	72
	APPENDIX	74
	APPENDIX A: Operational Data from Aquatera	
	APPENDIX B: Water Demand and Storage	
	APPENDIX C: Extract from ABC 2006	
	APPENDIX D: Wastewater Flow	
	APPENDIX E: Aerated Lagoon Conversion Proposals	

---

APPENDIX F: Capital Cost

APPENDIX G: Infrastructure Charge Calculations

## **ACKNOWLEDGEMENTS**

The project consultants gratefully acknowledge the following individuals for their valuable contribution to this study:

### **Aquatera Utilities Inc.**

- Timothy Lau, P.Eng. Project Coordinator
- Evan Albinati, CET, Technical Supervisor
- Lynne Coulter, Member of the Steering Committee

### **Town of Sexsmith**

- Carolyn Gaunt, Town Administrator

### **Alberta Environment – Approvals & Waste Management (Western Region)**

- George Neurohr, P.Eng., Municipal Engineer
